

PRODUCT INFORMATION COMPRESSES (Nonwoven 73 gr)

The nonwoven 73g / m² is soft, not abrasive, very resistant in dry and wet conditions, absorbent (until 750% of its weight), and not fluffy (Air particule cleanliness Class 10000 / Clean Room ISO 7). Resists to water and solvents.

Certified food contact. Biodegradable (more than 90% of cellulosic nature).

If we compare the nonwoven compress to classic cotton thread compress, the nonwoven compress offers advantages like :

- **double absorption** to equal surface
- **very soft** use providing a better comfort for the patient
- **no adhesion to wound**
- **no cotton particles** and,
- **lower abrasiveness**, facilitating healing.

Format (mm)	Référence
80 x 80	0801/0000
100 x 100	0802/0000
150 x 150	0803/0000
200 x 200	0804/0000
500 x 500	0805/0000

All our nonwoven quality have successfully passed the overall migration test into 3 liquids (distilled water, acetic acid, isooctane) in accordance with AFNOR Standard XP ENV 1186 - EEC Directives – 85/572 90/128 97/48 – Decree of 09/14/92. Our Non-woven can therefore perfectly be considered as adapted to food contact.

The trials carried out, according to the Drum Test Method (Helmke Drum) IES RP C 03/87T, indicate a release of 5485 particles for one moving sheet during one minute. In the testing conditions and according to the results, one sheet of our non-woven could be used in a room of mastered dust Class 10 000 (Federal Standard).

Do not hesitate to contact us for other formats.
