All our nonwoven quality have successfully passed the overall migration test into 3 liquids (distilled water, acetic acid, isooctane) in accordance with AFNOR Standard XP ENV 1186 - EEC Directives – 85/572 90/128 97/48 – Decree of 09/14/92. Our Non-woven can therefore perfectly be considered as adapted to food contact.

The trials carried out, according to the Drum Test Method (Helmke Drum) IES RP C 03/87T, indicate a release of 5485 particles for one moving sheet during one minute. In the testing conditions and according to the results, one sheet of our non-woven could be used in a room of mastered dust Class 10 000 (Federal Standard).

Do not hesitate to contact us for other sizes or for unit formats.
