

PRODUCT INFORMATION

FINE CLEANING CLOTH - Dispenser box (Nonwoven 43 gr)

The nonwoven 43 gr wiping rolls are designed to a fine cleaning and offer a high resistance in dry and wet conditions, remarkable capacity and speed of absorption (until 700% of its weight), an optimal water absorption, a high restitution capacity of solvents, thinners and cleaners, and thus an economical consumption . Soft and not abrasive. A constant quality and a space saving, compared to original cloths in fabric. Biodegradable (more than 90% of cellulosic nature). Certified food contact.

The dispenser boxes in alveolar polypropylene protect the reels of water and liquids projections. This resistant box is thus reusable and refillable with reels. Food contact, the box fits in the H.A.C.C.P. Process. 100% recyclable.

- Box delivered with a pre-cutted roll width 30cm, on core diameter 40 mm.

Reference	Description	Format (cm)
0201/EF01	Box of 325 formats	30 x 30
0202/EF04	Box of 250 formats	30 x 40
0203/0000	Box of 200 formats	30 x 48
0204/0000	Box of 160 formats	30 x 61

All our nonwoven quality have successfully passed the overall migration test into 3 liquids (distilled water, acetic acid, isooctane) in accordance with AFNOR Standard XP ENV 1186 - EEC Directives – 85/572 90/128 97/48 – Decree of 09/14/92. Our Non-woven can therefore perfectly be considered as adapted to food contact.

The H.A.C.C.P or « Hazard Analysis Critical Control Point » is a preventive risk control system which aims at securing food safety. The system allows to identify the specific danger(s), to estimate them and to establish measures to control them.
